WELCOME TO FEILONG

Feilong Home Appliances is a renowned brand in the world of home appliances, known for its high-quality products and innovative designs. If you are on the lookout for new appliances for your home, there are several reasons why you should consider choosing Feilong. From their commitment to sustainable manufacturing practices to their focus on customer satisfaction, Feilong stands out as a leading choice for those in search of reliable and efficient home appliances.

One of the key reasons to choose Feilong Home Appliances is their dedication to producing sustainable products. Feilong is committed to reducing their environmental impact through energy-efficient designs and eco-friendly materials. By choosing Feilong, you can feel good about investing in products that are not only high-quality but also environmentally conscious.

FEILONG HISTORY

In 1995

Feilong was founded with its first initial factory. Producing Twin tub washing machines in Xin Pu. Village Ningbo, quickly becoming the leading OEM supplier in the area.

In 1998

Began producing fully automatic.Top Loading washing machines. selling to the top brands in China and beginning to produce for our own RIPU brand.

In 2005

Our Second Factory was built producing Chest Freezers, close to our first factory in CIXI as our brands and popularity vastly expanded

In 2006

Such was the success of our chest freezers and due to the realtive similarity between the products we bagan to further expand to produce refrigerators

In 2008

Our Third Factory was built producing Commercial refrigeration and chest freezers and the beginning of creating our now huge brand of Henan Bing Xiong.

In 2014

Feilong's growth was un-precedented and soon our products would take an-other major expansion with a Forth Factory built produ-cing LED TV's as well as refrigerators and freezers

In 2018

Further product expansions into Wine coolers and beverage coolers

In 2020

Due to Covid restrictions, Feilong decided to open new markets and sell their own brands to the USA and EU .markets and open-ed our now famous side by side.

In 2024

In JiangSu a new factory has been built to further our product line producing Ice Makers and commercial refrigeration

In 2025

A new product is currently being developed and tested, Feilong will soon produce front loading washing machine

Twin Tubs

Feilongs twin tub washing machines are designed to be extremely easy to use. Simple self explanatory features, but with all the power of the best washing machines around. With a huge range in sizes available and designs that really make your brand shine.

SIMPLE,EASY TO USE, SUPER POWERFUL

Feilongs twin tub washing machines are designed to be extremely easy to use. Simple self explanatory features,but with all the power of the best washing machines around. With a huge range in sizes available and designs that really make your brand shine.

DIAMOND WASHING IN A TWIN TUB

Feilong's diamond wash drums are optional in all our machines, to really help boost our washing power and remove stain ability.

WHISK AWAY MOISTURE

With high speed spin rate, moisture is whisked away,reducing the time you need to sun dry your clothes.Save time with Feilong.

This powerful motor with the newest generation of electronics extremely efficient and provides better washing results. With reduced noise and better saving energy Feilong is a pioneer in the industry.
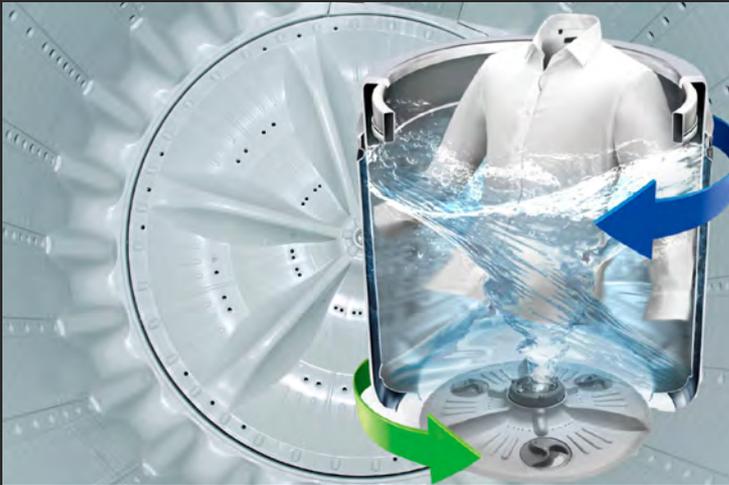

OPTIMIZE WATER DRAINAGE

Making draining water easier, epscially for areas without easy drainage. Extremely fast and high pressured. makes washing your clothes even easier.

IN-BUILT HAND WASH BASIN

If you need to wash clothes fast, or only have a couple of clothes you need to wash, don't waste water. Use our hand basin, ready made for each use and then save and use the water next time for your main wash.
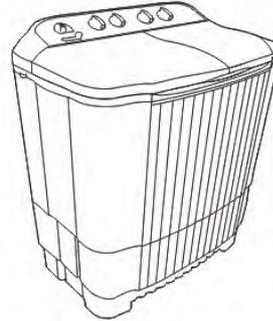

SUPERIOR RELIABILITY AND ENERGY EFFICIENCY

This powerful motor with the newest generation of electronics extremely efficient and provides better washing results. With reduced noise and better saving energy Feilong is a pioneer in the industry.

Features

Air Turbo Spin-drying

The all-new Feilong Twin Tub Washing Machine has an Air Turbo Spin-drying system which reduces drying time. During its spin cycle, the drum rotates at a high - speed to extract more water out of the clothes that leave the laundry fresh and well-dried by its powerful circulation. The air goes inside the door and circulates inside the tub which helps the clothes to get drier more effectively even in a humid climate, and lightweight fabrics can be ironed straight from the washer!

Impeller Pulsator

The newly designed dynamic pulsator makes your laundry clean better with a constant variable and powerful water wave. Its fast spinning generates strong and dynamic movement of the water during its wash cycle, so that it powerfully penetrates fabrics and stains are removed more effectively

Rust-proof body

The washing machine has a non-corrosive and rust-proof plastic body, which is made of harmless polypropylene and it is resistant to humidity. So it's extremely durable and even in conditions that would cause a steel body to rust and slowly deteriorate, it will stay looking good for years to com

Water Selector

Switch to let water flow into either the washing tub or the spinning tub easily by using the handy Water Selector.

Feilong has a huge ranger of top loading washing machines that aresuitable for any need. Whether you need a portable small machine for apartments or if you have a massive family and large loads we are here to help.

TAKE CARE OF LAUNDRY ANYWHERE, ANYTIME

Feilong has a huge ranger of top loading washing machines that are suitable for any need. Whether you need a portable small machine for apartments or if you have a massive family and large loads we are here to help.
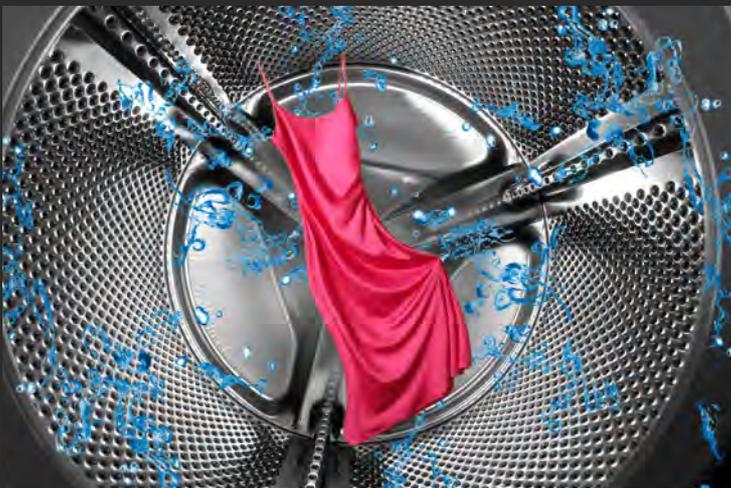

EASILY REMOVE STAINS

Feilong's washing machines are designed to facilitate dissolving and activation of the detergent generating bubbles that penetrate deep intothe fabric fibers to remove stains.
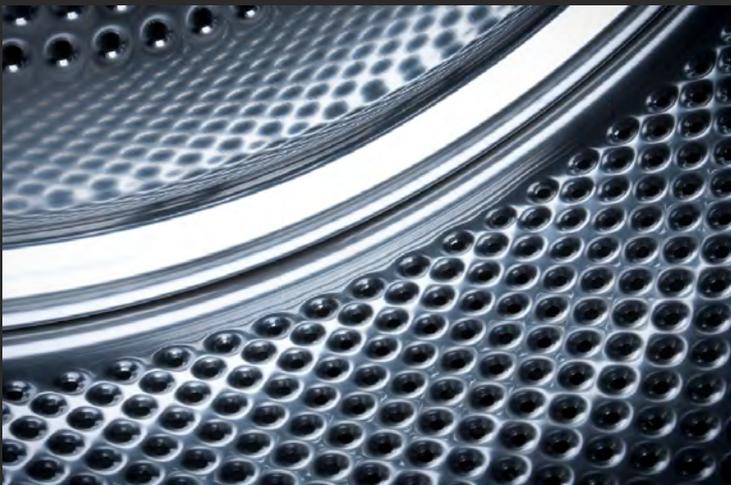

WHISK AWAY MOISTURE

With high speed spin rate, moisture is whisked away,reducing the time you need to sun dry your clothes.Save time with Feilong.

This powerful motor with the newest generation of electronics extremely efficient and provides better washing results. With reduced noise and better saving energy Feilong is a pioneer in the industry.

OPTIMIZE WASHING RESULTS

Internal sensors allow the load sense technology to precisely weigh out the laundry and match the water intake based on the weight of the clothing. This function saves water, energy and time and always guarantees great results

STRONGER WATER FLOW

With its optimized turbo and advanced filters, this washing machine is able to generate strong water streams that help detergent to spread and target stains faster while providing tangle-free results.

SUPERIOR RELIABILITY AND ENERGY EFFICIENCY

This powerful motor with the newest generation of electronics extremely efficient and provides better washing results. With reduced noise and better saving energy Feilong is a pioneer in the industry.

Feilong's refrigerators come in all shapes and sizes, table-top, double door, triple door, single door, glass door, wine coolers and make up fridges. We will help you to find your perfect refrigerator products, which will be tailored to your specific needs. We are always willing to help over any issue.

COMPACT ON THE OUTSIDE, HUGE ON THE INSIDE

Clever usage of space -Using extremely concentrated foamingtechniques we are able toincrease the area insideyour machine.

ELECTRONIC TOUCH CONTROL SIMPLE AND PRECISE CONTROL

Take complete control overyour beverage coolers features with a clear, easy to reach and simplue use LED touch control panel. You can precisely adjustthe temperature and select allthe additional features offeredby our Feilong beverage cooler.

SOFT LED LIGHTING BRIGHTER AND MORE EFFICIENT

Brighter and more efficient than standard fridge bulbs.LED lighting illuminates the contents of your fridge butremains soft on the eyes.

With our total no frost technology, there will be no ice build up in the appliance.Making defrosting a thing of the past.We still also make defrosting refrigerators that keep your food fresher for longer.The choice is yours.

RETRO DESIGN WITH MODERN CHIC

Adding nostalgia to modern technology, our retro series is a masterpiece that brightens any room and hasthe same features as our other fridges.

REMOVABLE TWIST ICE MAKER

Thanks to optimal twist ice make, just twist the knob,the ice cubes will fall to the tray easily.

SURROUND COOLING SYSTEM

Cools the fridge evenly from corner to corner. With proper evaporator spacing cold air vents on every shelf, so as to maintain a constant temperature and food stays fresher.

Features

Adjustable Temperature Control

Allows you to adjust the internal temperature manually between 1°C to 10°C, keeps your freshness lasting longer at an optimum temperature.

Compact Design

Compact design that can be customized to match your brand and style.

Large Capacity

With a huge range of products that are perfect for any room whether in is the office or at home. The refrigerators are designed to be small on the outside but huge on the inside.

Mechanical Operation

Our compact defrost refrigerators are perfect for any room with easy to use mechanical operations for simple plug and play usage.

Optional Freezer

With a huge range of products that are perfect for any room whether in is the office or at home.

You will get all you want in life if you help enough other people get what they want.

Feilong's chest freezer range is world reknowned. From basic ranges to top of the line ultra low freezers, solar panels to invertor compressors we have everything top brands need.Whether your looking for low - mid -high range products Feilong ensure the quality is always top notch.

COMPACT ON THE OUTSIDE, HUGE ON THE INSIDE

Clever usage of space -Using extremely concentrated foaming techniques we are able to increase the area inside your machine.

6 STAT TOUCH CONTROL

Take complete control over your beverage coolers features with a clear, easy to reach and simplue use LED touch control panel. You can precisely adjust the temperature and select all the additional features offered by our Feilong beverage cooler.

SOFT LED LIGHTING

Brighter and more efficient than standard fridge bulbs.LED lighting illuminates the contents of your freezer but remains soft on the eyes.

Most of our selections are intended for general use and are ideal for the basement or garage. We also included freezers that work well in kitchens and other living spaces, with ultra-quiet operation and color selection.

DUAL COOLING

The Dual-Tech cooling system in the freezer maintains the ideal humidity and temperature levels in each compartment.

SOLAR PANEL FREEZER

Adding nostalgia to modern technology, our retro series is a masterpiece that brightens any room and has the same features as our other fridges.

ULTRA LOW -86 FREEZERS ICE WITH A TWIST

Thanks to optimal twist ice make, just twist the knob,the ice cubes will fall to the tray easily.

Features

Adjustable Temperature Control

Allows you to adjust the internal temperature manually between 3°C to -18°C, keeps your freshness lasting longer at an optimum temperature.

Chest Freezers

Chest freezers hold the most food per square foot. This type of freezer has door mounts along the back edge of the chest with a vertical swing for a tighter seal. Cold air stays low inside a chest freezer when the door is open and doesn't escape as quickly as it does from upright freezers. Compared to other types of freezers, chest freezers are less likely to cause freezer burn. A small chest freezer or mini freezer may be useful if you find your refrigerator's freezer won't hold all of your frozen groceries for the week or if you want to preserve summer produce to enjoy all winter long.

Large Capacity

With a huge range of products that are perfect for any room whether in is the office or at home.

Mechanical/Digital Operation

Our freezers are perfect for any user with easy-to-use mechanical operations for simple plug-and-play usage or go for a more extravagant digital control to show off your brand and product.

Stunning design that can be customized to match your brand and style.

You will get all you want in life if you help enough other people get what they want.

The Future of Freezing is Here – Introducing the No-Frost Chest Freezer!

No Frost, No Fuss – Just Cold Hard Perfection! Defrosting is So Last Season – Our Freezer's Got Better Things to Do!

Features

What Makes a Frost Free Chest Freezer Different?

A frost-free chest freezer differs from traditional chest freezers by using a system that prevents frost buildup. This system usually consists of a fan that circulates air to maintain an even temperature, thereby avoiding the formation of ice and frost on the walls and food items. This leads to reduced maintenance and more efficient operation.

How a Frost Free Chest Freezer Works

A frost-free chest freezer operates by using a fan to circulate air, preventing moisture from settling and freezing. Some models also have a heating element that periodically warms the coils to melt any ice that might form. This technology ensures that the freezer maintains a stable temperature and avoids the common issues associated with frost buildup.

Low Noise Design

Advanced fan and compressor technology for quiet performance.

Optimized Cooling Performance

Smart fan system reduces energy consumption while maintaining ideal freezing conditions.

Say Goodbye to Frost – Smart Cooling, Effortless Convenience!

Total Storage Volume	200L
Product Size(W*D*H)	800x522x820mm
Packing Size(W*D*H)	930x560x850mm

Features

You will get all you want in life if you help enough other people get what they want.

Inverter Technology Explained

for inverter freezers, as the name implies, the compressor, which serves as the "heart" has been infused with inverter technology. The compressor for the inverter freezer operates at a long and slow speed. The compressor has the power to work based on the way the consumer uses it. For instance, during the day, you are most likely to use the freezer more often, therefore, the compressor runs at a high speed. However, freezer usage reduces at night, consequently the freezer runs at a low speed. This is where energy saving comes into play.

Almost Silent Operation

Low noise level: the compressor in a regular freezer operates on an on/off-cycle, making the freezer have a humming sound. The compressor of the inverter freezer operates at a low frequency making the sound of the freezer almost inaudible.

Non-Turbo Inverter Chest Freezer

Unlike the turbo Inverter Chest Freezer, the non-turbo model has many benefits including consuming less energy compared to the turbo model.

Large Capacity

With a huge range of products that are perfect for any room whether in is the office or at home.

Mechanical/Digital Operation

Our freezers are perfect for any user with easy-to-use mechanical operations for simple plug-and-play usage or go for a more extravagant digital control to show off your brand and product.

Product Details

The Feilong range of commercial display fridges and freezers takes care of all your frozen retail needs. We have a wide range of top   quality units whatever the application. Perfect for any shop,café or convenience store, our display fridges are available in a wide range of sizes and styles with sliding or hinged lids and a huge range of sizes to suit any capacity.

COMPACT ON THE OUTSIDE, HUGE ON THE INSIDE

The door panel is made of tempered glass that is durable enough for anti collision, door frame and handles are made of PVC material, and it can be swung to open and close.

LIGHT BOX ADVERTISING

Lighted advert panel for the store to put customization graphics and logos on it, that can help be easily noticed and increase the visibility of your equipment no matter where you position it.

FAN ASSISTED WITH LED LIGHTS

The temperature is controlled by a fan-assisted cooling system. Interior space is simple and clean and comes with LEDs as lighting.

Specially we run OEM production for display fridges for global and local brands of juice, soft drink, energy drink, juice, beer, wine, milk, yogurt, ice cream, cake, etc.. Our Branding Team design shapes, patterns and mockups for the coolers or freezers that suit your logo.

SIMPLE AND EASY TO CONTROL

The control panel of this commercial glass door refrigerator is positioned under the glass front door, it's easy to turn on/off the power and switch the temperature levels, the rotary knob comes with several different tempera-ture.options and can be precisely set where you want it.

PERFECT RESTAURANT COMPANION

This type of Upright Door Stainless Steel Reach-In Cooler & Freezer is for restaurant kitchen or catering business to keep fresh meats or foods.

REACH-IN RESTAURANT FREEZER

This type of Chef Base Worktop Un-der-counter Small Fridge comes with 4 pull out drawers, it is for commercial kitchen or catering business to keep foods refrigerated at the optimum temperatures.

Features

Anti-Fogging Glass Door
Helps to prevent your refrigerator from steaming up and preventing customers from seeing your delightful products

Attractive advertising boards
With our led lighted advertising boards your products and brands are really brightened to look as delicious as possible.

CFC Free
Like all our products they are environmentally friendly and energy efficient to ensure you get the best value possible from your storage requirements.

Low Noise
Doesn't disturb your shopper experiences thanks to its low noise compressor.

Showing off your products

SUPERMARKET REFRIGERATORS
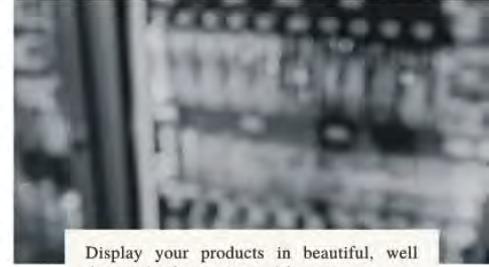

Display your products in beautiful, well designed refrigerators and freezers.

TV Collection

Nowadays, TV is far more than a display device.

It plays further important roles apart from
bringing the outside world to your home
with advanced picture and sound technologies.

Screen images can be optimized to make sure
every frame is most suitable for both environment and content.

Smart functions like voice control, once-touch-access to streaming apps are consolidated to
make the operation as easy as possible.

Furthermore, TÜV Rheinland certified low blue light is synonymous with protection.

Make your home an relaxing and cozy space with

FEILONG ELECTRIC
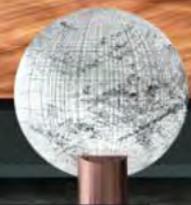

| VRR | Auto Low-Latency Mode | HDMI 2.1 | Game Mode Pro |

Hands Free Voice Control
With or without your remote, with or without your voice assistant, your voice can control me! No need to press, just say it!

Game Mode Pro
When connect a game, the ALLM & VRR function of HDMI 2.1 will automatically switch TV into Game Mode

8K Resolution
Never before seen depth and detail, with perfect realism

8K
ULEDTV EHXB1
Beauty beyond the screen

The advanced ecosystem brings the pioneering entertainment complex to homes with the stunning detail and the exceptional depth, which draws you right into the picture.

About Slushy Maker

Feilong WiFi Touch Screen Slushy Maker – The Future of Frozen Treats!
Introducing the Feilong WiFi Touch Screen Slushy Maker – a cutting-edge, smart appliance that brings the fun of refreshing slushies right to your home or business. With sleek modern design, intuitive touch controls, and WiFi connectivity, this slushy machine makes it easier than ever to create perfect, icy treats at the touch of a button. Whether you're hosting a party, running a café, or simply craving a delicious frozen drink, Feilong delivers powerful performance, convenience, and innovation in every sip.

Dimensions

Ice shape	Slush form	Maximum slush production capacity	1.5L
Maximum ice storage capacity	1.5L	Water supply method	Manual water filling

Features

- **Smart WiFi Connectivity**

  Control your slushy maker remotely via a dedicated app!
  Adjust freezing settings, monitor progress, and discover new recipes from your smartphone.

- **High-Resolution Touch Screen**

  An intuitive, responsive interface lets you select preset modes or customize texture and consistency with ease.
  Advanced Freezing Spindle Technology – A rapid-cooling stainless steel cylinder spins to evenly freeze liquids around it, creating a smooth, lump-free slush without blades or crushing.

- **Large Capacity & Quick Freeze Function**

  The XL container makes multiple servings at once, while energy-efficient cooling ensures fast results with minimal wait time.

- **Endless Flavor Possibilities**

  Works with juices, sodas, sports drinks, and even cocktails.
 Perfect for slushies, frozen cocktails, or creative DIY flavors!

- **Hassle-Free Cleaning & Durable Build**

  Removable parts are dishwasher-safe, and the sleek, modern design ensures long-lasting performance with minimal maintenance.

  Experience the next generation of slushy makers with Feilong – where innovation meets icy perfection!
